GOING
THROUGH

BOTH DR. YASUDA AND DR. KITAHARA ARE IN EMERGENCY SURGERY!

TWO PATIENTS DIED A FEW MINUTES AGO...

TWO IRON BARS SLIPPED OFF THE TRUCK IN FRONT OF HER AND THEY WENT RIGHT THROUGH HER!

THE PATIENT IS AN 11 YEAR OLD GIRL, SERIOUSLY CONSCIOUS.

I'VE ONLY REMOVED APPENDICES BEFORE!

E..

OH, HONO ON LINE!

HER PARENTS WERE TAKEN TO ANOTHER HOSPITAL WITH ARMED INJURIES, BUT SHE WOULDN'T HAVE MADE IT THERE IN TIME.

WHAT DO WE DO NOW??

IS THE ON DUTY HERE?

NO DOCTOR

DR. TOSHIO

SO... I'M IT?!

OH... NO...!

Editor Notes

Heya, Kuwabara here. I just want to throw out some thanks to Jhitchin (the scanner and translator for this manga) because he is a great guy to work with, and make my job as an editor easier. I also want to thank kokoronohikari for her help, though small and not used, was greatly appreciated. Anyways, Jhitchin and I are really busy guys, so releases for this manga will be very far between. We'll both try to get as much done as we can, but we can't make any promises. So, if you like this manga, you're gonna have to wait it out with us!

Editor Notes

WOW, GHT IS JUST GETTING BETTER AND BETTER. I LIKE THIS CHAPTER, BECAUSE IT SHOWS AYANO BECOMING A MORE 'STABLE' CHARACTER. WHAT I MEAN IN STABLE IS THAT SHE IS ACTUALLY GAINING CHARACTERISTICS, INSTEAD OF JUST SHOWING UP EVERY FEW PAGES TO MAKE TERU BLUSH. ANYWAYS, I LEFT THE FLASHBACK OF KITAMI'S IN JAPANESE BECAUSE I THINK IT LOOKS BETTER, AND IF YOU DON'T NOW WHAT THEY'RE SAYING, THEN GO GET THE PROLOGUE! WE'RE PICKING UP IN SPEED, SO THE NEXT RELEASE MAY BE OUT SOONER THAN YOU THINK! STAY TUNED, KIDDIES.

Editor Notes

ALRIGHT, THE EDITOR NOTES ARE AT THE BEGINNING OF THIS RELEASE TO INFORM YOU OF SOMETHING IMPORTANT. AT THE END OF THIS RELEASE IS A LIST OF DEFINITIONS OF THE DIFFERENT TERMS AND TOOLS THAT ARE USED IN GODHAND TERU, PROVIDED BY OUR MOST GRACIOUS TRANSLATOR, JHITCHIN. I DON'T THINK ANY NORMAL TRANSLATOR COULD HANDLE THIS MANGA, SINCE TEHRE ARE SO MANY MEDICAL TERMS AND WHATNOT THAT WOULD PROBABLY BE HELL TRANSLATING, AND I KNOW JHITCHIN HAS A TOUGH TIME AS WELL. SO, IF YOU DON'T KNOW WHAT SOMETHING MEANS, LOOK AT THE LAST PAGE TO SEE IF IT'S DEFINED. THESE WILL PROBABLY BE AT THE END OF EEVRY RELEASE.

*Taisaku is Japanese public hospital, when someone is admitted, the nurses may refuse to admit the patient if someone from the family does not visit the patient all day. This practice is called "taisaku" and is illegal, but enforcing the law against it is difficult in hospitals.

Intestinal Obstruction!
Also called an ileus.
Caused when
objects passing
through the intestines
get stuck, causing
extreme abdominal
pain

**AN
ILEUS?!**

Can usually be treated by
irrigation of the lower
intestines,
but acute cases can require
immediate abdominal
surgery, especially if
it has gone untreated for a
longer period of time.

**BUT

I NOTICED HIS FACE WAS REALLY PALE

WELL, THE SOUTH IS...

IF YOU'VE NEVER SEEN THAT KIND OF THING BEFORE, IT CAN HIT YOU REALLY HARD

I JUST FIGURED THAT SEEING HIS FRIEND BLEEDING ALL OVER THE PLACE DISTURBED HIM

THERE'S
NO SUCH

THINGS
LIKE THAT
DON'T

THE
SCREAMS OF

BUT WHAT
IF HE

Translator notes:

Compound fracture: This is when the bone breaks and then ruptures the skin. Very unpleasant.

Cooper: A curved surgical scissor. Usually used to cut through soft tissue.

Kocher: This is a type of artery forcep. These are used to hold a blood vessel so it can be moved out of the way or clamped.

Lepetan: This is a form of anaesthetic. In the United States, we would use something like Lidocaine or Xylocaine for the same thing. Basically, it blocks nervous conduction, thus deadening pain.

Masquits: Masquite forceps have long pointed ends and are used to basically clamp something so it can be pulled or moved. Not as specific as the Pean or Kocher forceps.

Pean: Rochester-Pean forceps. These are hemostatic forceps used to clamp a blood vessel down to restrict blood flow.

Peritoneum: The lining of the abdomen. It holds in the stomach, intestines and liver. The kidneys actually live between the peritoneum and the abdominal wall.

A SAD HALF CHAPTER, EH? DON'T WORRY, THE NEXT HALF IS GOOD. :) I'VE HAD THESE SCANS FOR A FEW WEEKS, AND I WAS REALLY EAGER FOR THE TRANSLATIONS, SO I COULD KNOW WHAT WAS GOING ON. CAN'T WAIT FOR THE NEXT, AND I'M SURE YOU ALL CAN'T EITHER. ANYWAYS, AFTER THIS NEXT RELEASE, THE CHAPTERS GET QUITE SMALLER, SO THERE WON'T BE AS MANY CHAPTER CUT IN HALF AS THERE HAS BEEN. WHICH MEANS NOT SO MANY DRAMATIC PAUSES, THOUGH I'M SURE YOU GUYS LOVE THEM. :P WE PLAN ON FINISHING AT LEAST TWO MORE VOLUMES OVER THE COURSE OF SUMMER, SO PRAY WITH US THAT WE FREE UP A LOT OF TIME!
